EDUCATION

Sambalpur University Institute of Information Technology

Bachelor of Technology in Computer Science and Engineering (CGPA: 8.62)

Aug 2023 – Present

Sambalpur, Odisha

EXPERIENCE / INTERNSHIP

Research Intern, NIT Rourkela

AI/ML and Deep Learning Applications

Jun 2025 – Jul 2025

Rourkela, Odisha

- Implemented a deep learning model for mammogram classification, achieving 98% accuracy and improving diagnostic reliability.

Vocational Trainee, Rourkela Steel Plant

Industrial Training

May 2025 – Jun 2025

Rourkela, Odisha

- Analyzed 10+ industrial processes and engineering workflows, gaining practical exposure to large-scale manufacturing operations.

Intern, Edunet Foundation

AICTE AI Program: Transformative Learning with TechSaksham

Jan 2025

Remote

- Engineered an AI-powered prototype leveraging Generative AI tools, improving task execution efficiency by 30%.

PROJECTS

PROTECTSCAN: Privacy-Focused CNN-based Breast Cancer Detection Framework

Jun 2025 – Aug 2025

- Engineered a CNN-based breast cancer detection system, attaining ~98% accuracy across 10,000+ mammograms, demonstrating proficiency with ResNet and EfficientNet architectures.
- Enhanced model interpretability using Grad-CAM visualizations and integrated AES-256 encryption to secure 10,000+ patient records.

Heart Disease Prediction System

Mar 2025 – Apr 2025

- Designed a heart disease prediction model achieving ~92% accuracy using Logistic Regression and Random Forest on 300+ patient records.
- Built and deployed a Flask-based web application delivering real-time predictions and personalized recommendations based on 13 clinical health parameters.

CraftedByMoharana

Jan 2025 – Feb 2025

- Created a responsive multilingual website featuring 20+ artisan products using HTML, CSS, and JavaScript.
- Crafted a user-centric interface achieving ~100% mobile responsiveness and seamless cross-browser compatibility across devices.

ACHIEVEMENTS / CERTIFICATIONS

- Secured 10+ prizes across university-level technical competitions, literary events, coding contests, and public speaking engagements.
- Programmed software solutions during the 24-hour Craft-n-Code Hackathon at D3 Fest (IIIT Bhubaneswar), showcasing rapid prototyping and collaborative development.
- Collaborated within a cross-functional team to develop full-stack features during the Hack-O-12 Hackathon.
- Executed 5+ AI/ML and Full-Stack projects involving medical image analysis and predictive analytics.

SKILLS

- **Programming Languages:** C, C++, Java, Python, SQL
- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS
- **Backend & API:** Node.js, Express.js, REST APIs, Authentication Systems
- **Databases & ORMs:** PostgreSQL, MongoDB, Prisma ORM
- **AI/ML:** TensorFlow.js, LangChain, Deep Learning, CNN, ResNet, EfficientNet, Logistic Regression, Random Forest
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Canva, Figma
- **Specializations:** Cryptography, Medical Image Analysis
- **Soft Skills:** Leadership, Public Speaking, Event Management, Communication

LEADERSHIP & INITIATIVES

- Led AWS Big Data Analysis initiatives and organized 9+ technical and cultural events as Art & Craft Society Lead, driving student engagement.
